# Offer students the chance to become world champions

## *F1 in Schools Curriculum Resource*

Andy Howlett

- » **Run a cross-curricular project based on a global competition**
- » **Gain ready-to-use resources for key curriculum subjects**
- » **Get involved in a huge sporting phenomenon**

The *F1 in Schools Curriculum Resource* presents the opportunity for your school to:

- bring learning to life
- motivate students
- set up cross-curricular learning easily and quickly
- reward your students at a regional, national and international level.

## All students can get involved

### Benefit the whole school

The *F1 in Schools Curriculum Resource* can help your school to:

- **improve behaviour** – The engaging nature of the activities and the glamorous topic makes students want to learn.
- **raise achievement** – The element of competition helps to motivate students.
- **encourage independent learning** – The open-ended nature of the project enables boys' and girls' talents to flourish – whatever their interests.
- **involve students of all ages and abilities** – The resource helps to embed the competition in the school timetable.

Lewis Hamilton with the 2009 F1 in Schools World Champions

### What is F1 in Schools?

F1 in Schools, the Formula One (F1) Challenge, is a multi-disciplinary competition involving over 30 countries. Students plan, design, manufacture, test and then race miniature balsa wood racing cars powered by compressed gas. For more information, visit [www.f1inschools.co.uk](http://www.f1inschools.co.uk).

- » **Support hard-pressed staff**
- » **Benefit from well-structured, ready-to-use resources**
- » **Use across the school, in a range of subjects**

**Recognised by the DCSF as an effective tool for raising achievement**

## Gain a huge range of material

Fully referenced to the KS3/KS4 National Curriculum (including enterprise education), relevant GCSE specifications and 14-19 diplomas, the **F1 in Schools Curriculum Resource** includes material for students aged between 9 and 19. The resource contains session plans to guide students through the work they need to do in order to compete. Comprehensive guidance on managing the project is also included, helping you to:

- set up the project to suit your school
- provide differentiated activities
- assess students' work
- monitor students' progress.

## Support cross-curricular learning

Setting up project-based or enquiry-based learning in school can be a challenge. The **F1 in Schools Curriculum Resource** presents a fully supported, tried and tested project which is ready to use.

## All available online, every year

The **F1 in Schools Curriculum Resource** is accessed online and is sold with a full site licence for use in your school for the subscription period (12 months). The licence enables you to share and copy the material throughout your school. A wealth of editable digital files is included which can be viewed onscreen or printed on demand.
